3. Accessibility Features

We aim to make our website accessible by:

- ✓ **Keyboard Accessibility:** We endeavour to provide websites that can be navigated using a keyboard, which is essential for visitors with motor impairments.
- ✓ **Colour Contrast:** Providing colour contrast requirements to improve text visibility for users with visual impairments.
- ✓ **Consistent Navigation:** Providing consistent navigation across the website to improve the user experience for all visitors.

4. Measures to Support Accessibility

We are taking the following measures to promote accessibility:

- ✓ **Ongoing Training:** Our team receives ongoing training to maintain and improve accessibility across all digital properties.
- ✓ **Accessibility Testing:** We review and test our websites, utilising internal and independent external audits to maintain accessibility requirements.
- ✓ **User Feedback:** We welcome feedback from users on accessibility and usability issues to make continuous improvements.
